Buy Order screen

If you want to place your buy order you have to fill in the following required fields:

Volume¹² and Fill¹³ conditions

Volume, which is the required number of shares.

Minimum Fill, which is the minimum volume of shares that must be filled.

Price condition

Price: which is the price specified by the player for a limit order. With a limit to buy the price represents the highest price that you will pay. The price of a limit order to sell represents the lowest price that you will accept.

Trigger Price¹⁴: is the price at which the system will make your BUY/SELL order active for execution and will be fired.

When the user set the trigger price this order will be considered trigger order and be place in Trigger Orders section.

Please Note:

If you entered a trigger price, your order will remain inactive till the price of the security reaches the specified price.

Order type: press the drop down list to select your order type. Choose LMT to set the maximum or minimum price at which you are willing to buy or sell, or MKT to buy or sell a security at the best available price in the current market.

Price Limit

Low / High, Those fields will display the amount that the above specified price cannot exceed or subceed, as it represents the price limit set by the exchange which is currently 10%.

Volume & Fill Conditions

Volume		Min Fill	
Order Value			

Price Conditions

Price		Trigger Price	
		Order Type	LMT ▼

Price Limit

Low	7.787	High	8.493
		Last Price	8.55

¹² Volume is the number of shares or contracts traded in a security or an entire market during a given period of time

¹³ A fill is the action of completing or satisfying an order for a security or commodity. It is the basic act in transacting Securities, bonds or any other type of security.

¹⁴ Allows investors to buy and sell securities at a certain price in the future. This type of order is used to execute a trade if the price reaches the pre-defined level; the order will not be placed if price does not reach this level.

Duration condition

You can specify how long the order remains active in the market and under what conditions the order is canceled, click on the drop down list and Pick one of the following conditions:

Good till cancelled

Which means your Order will be good till cancelled by the broker or executed in the market or has no predefined expiration date.

Immediate

Which means your order to buy or sell a security will executes all or part immediately and cancels any unfilled portion of that order, in other words this will expire at the same moment if it is not totally filled.

Good till Time

Which means your order will be valid till a certain date and time.

Available Volume: Which is your own securities available for immediate use.

Volume in hold: Which is the reserved securities for outstanding order (Sell Orders).

Balance Volume : Sum of the available volume and volume in hold.

Balance Summary			
	EGP		Shares
Available Cash	100,000.00	Available Volume	0
Cash in hold		Volume in hold	0
Balance Cash	100,000.00	Balance Volume	0

Stock Riders' User Guide

Before placing your buy/sell order, please take into consideration the following:

1. Required Volume should be greater than or equal the Min Fill.
2. Price should not exceed the price limit, which is usually 10% up or down from the low and high prices.
3. You should have sufficient cash to place your buy order (if you don't have enough cash you will have to sell first in order to be able to buy again).
4. Order value should not exceed your available cash.
5. You should have sufficient Securities to place your sell order.
6. Required entered Volume should not be decimal but whole number.
7. Settlement period is T+0 which means that you can sell what you bought and buy what you sold during the same session. And players who sold their shares receive their money during the session ([settlement period – T+0](#)). (Check the hyperlink to know more about the intraday Trading applied on the Egyptian Market).

Now, just press submit order to proceed.

Back			

Finally and before you start, please have a look on the game rules:

1. Each player begins the game with LE 100,000 (virtual).
2. Trading (buying/selling) is based on actual daily prices of Securities.
3. When an order is placed outside of the market hours, it will not be executed.
4. Winners will be determined on the basis of their portfolio ranking at the end of the final day of each round.
5. "Portfolio ranking" is calculated based on the total balance using the following formula: Cash (available balance plus Cash on hold) + Portfolio (total market value of Securities).
6. After the end of each round and identifying final ranks of players, all portfolios will be reset to zero, the player cannot participate in the next round holding his old portfolio.
